CONSTRUCTION

1" x 2" wire mesh on tubular aluminum framework

COLOR

150+ colors from Martin Senour® paint book at no extra cost; screen is typically painted to match scoreboard/display

MOUNTING

Screens mount directly to scoreboard/display using provided hardware. Wall-mounting kits are also available, but will not work if multiple displays are aligned horizontally (for example, a scoreboard with a statistic display on either side).

GENERAL INFORMATION

Removable pins on one end of the protective screen allow the screen to swing open for display maintenance. Standard mounting kits will not work if scoreboard is to be suspended. Specifications and pricing are subject to change without notice.
