Game clock runs in sync with DakStats

Stats displays controlled by DakStats

LED display with individual player stats & headshot

Showcase game and season statistics on displays throughout your facility with DakStats Basketball software and the Daktronics Scoring and Timing Interface (DSTI). As the statistician tracks the game, all the essential statistics update automatically, reducing overall operator requirements to keep fans informed and engaged. Choose from two interface options (DSTI Standard or DSTI Pro) to fit your display needs.

DSTI STANDARD FEATURES

- Interface to All Sport® 5000 controller for automatic control of numeric stats displays, including in-game players and subs; All Sport controller also provides game clock timestamps in DakStats Basketball play-by-play mode
- Scoreboard real-time data (RTD) feed for Daktronics message and video displays

DSTI PRO FEATURES

- Each Standard feature above
- Requested team and player RTD feed for Daktronics message and video displays
- TV Feed

COMPUTER REQUIREMENTS

- Windows 10 or higher Operating System
- CPU and RAM must at least be equal to minimum requirements of operating system
- One (1) serial port, or USB-to-Serial converter
- Additional serial ports or networking may be needed based on interface requirements
